

COALVILLE CAN (Communities and Neighbours) Meet the Board..

Deana Wildgoose

My Top Priorities are..

For the CBS to take on a building with a sustainable long term plan in place & to share how a CBS works in practice with others!

Why I'm involved?

I've met such amazing people, and there are some great ideas and spaces out there that could be better used by the community. We can show that together we can achieve what many people think is impossible.

Fran Barney

My Top Priorities are ...

To establish a self-sustainable community group. To become an intrinsic part of Coalville which is inclusive of the surrounding communities

To develop an increased environmentally conscious community.

Why I'm involved?

Coalville is my local town and there is so much to be proud of, so much more it can offer. I also know the community as a whole has so much to offer - I believe that and want to encourage others to believe and achieve too. I know I can also grow and learn as an individual from others, being part of Coalville CAN CBS - such an exciting opportunity.

Liz Fletcher

My Top Priorities are ...

Making use of the large empty spaces for community. Preserving historical buildings that are part of Coalville's identify. Have a vibrant community hub that can serve as a centre for community led projects. Provide space for new businesses retail & office giving a lower risk opportunity for start-ups and small businesses.

Why I'm involved?

I want to put back into my local community, and use my experience, There's so many brilliant hands-on people who want to make a difference and help Coalville reach its potential.

James Wilkinson

My Top Priorities are ...

A sense of community well-being. Opportunity to share my experience, to understand and help delivery in projects we share collectively.

Why I'm involved?

I believe in the project. I believe in my community. I believe in my navigator and the Crew.

Nicki Worthington

My Top Priorities are ...

Community base, for the community, run by the community. Get the younger generation involved, build something unique

Why I'm involved?

I currently own the Market Cafe and would like to do more with the community, become a better community hub, expand what we already do.

Victoria Herriman

My Top Priorities are ...

To secure at least 1 building, completely run and owned by the Coalville community. I'm keen to see CBS in action in Coalville. To see how it works for people in reality rather than in theory. I would like to see a place where local people can have clear boundaries and control over assets. This is a nice thought. Seeing the reality of this would be phenomenal!

Why I'm involved?

I am eager to bear witness to a positive change, be part of the process that helps the people to become freer by creating an organisation with opportunities to make a contribution. I want to see the Coalville community taking responsibility for their future. A perfect balance of helping others and future generations whilst helping themselves. I would like to show the community spirit in Coalville and that we can exercise our mutual values of solidarity, harmony and friendship. We can come together for a cause and we will give it our all.
